

## **HUMAN FACTORS IN FLIGHT SAFETY**

### **Brent Hayward & Alan Hobbs**

This interactive webinar will provide an introduction to the field of Human Factors in Flight Safety in line with the corresponding 5-day EAAP-recognised training course by Brent Hayward and Alan Hobbs.

Participants will receive an abbreviated overview of human factors knowledge and practical tools that can be used to improve operational safety management. Final content will be somewhat dynamic / flexible, but will include a focus on HF as it applies to enhancing flight safety, including the evolution of aviation human factors, human factors in safety occurrence investigation, organisational contributions to accidents, human factors of safety barriers, and safety culture in aviation.

The next full 5-day Human Factors in Flight Safety course will be held in 2021.
